

## 4 by 4 cZeus Puzzles - Range 1 to 9

**cZeus Puzzles:** Fill the mystery numbers on the white square tiles, by using the given clues on dark rectangular and large square tiles.

Pair clues sit on the dark rectangular tiles. They are the addition/ multiplication of the two mystery numbers either side.

Square clues sit on the dark large square tiles. They are the addition/multiplication of the four cornering mystery numbers.

### Rule 1:

Mystery numbers can be any number from 1 to 9. A number may be used more than once, or not at all.

### Rule 2:

A pair of mystery numbers in two adjacent tiles (in any order) cannot be repeated.

### Rule 3:

This is an exception to Rule 2! Four identical numbers can sit around a square clue and form a cZeus square. This can happen once in a puzzle, if at all.

### Rule 4:

There is only one solution.

**Easy:**

6	+11	x30	5				
x42			x15	+16	x105		x168
		x21					
x49						x5	x240
		x63				+14	x40
x14							x64
		x18					x32

## 4 by 4 cZeus Puzzles - Range 1 to 9

**Medium:**

	x3		x6			
	x105	x21		x18		x48
			x18		x24	
	x216	x24			x192	
	x4		x16			

**Hard:**

			x54			
x28	+27		x756		x72	
			x224		x16	
	x720		x144		x16
